
10th Health Service Research and Pharmacy Practice Conference

29th and 30th March 2004

Venue:

Franklin-Wilkins Building
Waterloo Campus
King's College London
Stamford Street
London SE1

CONFERENCE PROGRAMME

MONDAY 29TH MARCH 2004

10.30	Registration and coffee	Ground floor reception area
11.00	Welcome Felicity Smith, School of Pharmacy, London Sue Jones, Department of Pharmacy, King's College London	Ground floor auditorium (B5)
11.10	OPENING PLENARY SESSION Chair: Anne Lovejoy <i>Communication of Risk</i> Ragnar Löfstedt Director, Centre for Risk Management, King's College London	Ground floor auditorium (B5)
12.15	Lunch	First floor café area

1.30 **FIRST PARALLEL SESSION (A)**

Session A1 – Prescribing

Room 1.10

Chair: Carmel Hughes

- | | |
|--|--|
| 1. Predicting prescribing trends in general practice | Kristina Åström, School of Pharmacy,
University of London |
| 2. Barriers to community nurse prescribing | Jason Hall, School of Pharmacy,
University of Manchester |
| 3. Statins and the interface between patient and
community pharmacist | Marie Chatterton, Department of
Medicines Management,
Keele University |

Session A2 – Concordance

Room 1.11

Chair: Sally-Anne Francis

- | | |
|--|--|
| 1. Understanding adherence to antibiotics:
a prospective study | Theo Raynor, School of Healthcare
Studies, University of Leeds |
| 2. A qualitative study of cardiac rehabilitation
patients' perspectives on compliance and
concordance with medicines | Simon White, School of
Pharmaceutical Sciences, University
of Nottingham |
| 3. Exploring psychosocial influences on
adherence to anti-hypertensive medication | Lisa Maguire, School of Pharmacy,
Queens University, Belfast |

Session A3 – Drug-related morbidity

Room 1.17

Chair: Delyth James

- | | |
|--|--|
| 1. Indicators for preventable drug-related
morbidity: facilitating changes in practice? | Caroline Morris, School of Pharmacy,
University of Manchester |
| 2. A method for international translation of
preventable drug-related morbidity
indicators in community pharmacy | Mara Guerreiro, School of Pharmacy,
University of Manchester |
| 3. Divergent perspectives on who is responsible
for preventing drug related morbidity | Rachael Howard, Nottingham Primary
Care Partnership |

3.00 **Tea/coffee**

3.30 SECOND PARALLEL SESSION (B) (including poster presentations)

Session B1 – Pharmacy in the Future

Room 1.10

Chair: Peter Knapp

- | | |
|--|---|
| 1. Research evidence and its influence on policy: progress in delivering improved services to drug users | Keith Wilson, School of Pharmacy, Aston University |
| 2. Social capital and pharmacy: an exploratory study | Louise Fenner, School of Pharmacy, University of Nottingham |
| 3. The development of the southern Derbyshire medicines support service | Diane Harris, Amber Valley PCT, Derbyshire |

Session B2 – Secondary care

Room 1.11

Chair: James McElnay

- | | |
|---|--|
| 1. Exploring the effect of the electronic patient record on hospital pharmacies: developing a case study approach | Geraldine Smith, School of Pharmacy, University of Manchester |
| 2. Health care outcome indicators are related to hospital pharmacy workforce | Amaia Borja-Lopetegi, School of Pharmacy, University of London |
| 3. Systematic review of the analgesic efficacy and tolerability of cox-2 inhibitors in postoperative pain control | Li-Chia Chen, School of Pharmacy, University of Manchester |

Session B3 – Posters

Room 1.17

Chair: Angela Alexander

- Each presenter will have 5 minutes to briefly outline the key points from their poster.
 - After the 12 presentations at 5.00pm, presenters will attend their poster and will be available for questions from delegates.
- | | |
|--|---|
| 1. Identifying opportunities for pharmacy involvement in asthma services: results from an omnibus survey | Tracey Thorney, The Boots Company, Nottingham |
| 2. An exploration of the influence of company policy on ethical decision making by community pharmacists | Joy Wingfield, School of Pharmacy, University of Nottingham |

Session B3 – Posters (contd.)

- | | |
|--|--|
| 3. “The chance to develop myself”: the aspirations of Essex pharmacy technicians | Imogen Savage, School of Pharmacy, University of London |
| 4. A multi-faculty study of academic dishonesty | Laure Obiols, School of Pharmacy, University of London |
| 5. Drug-related problems: what do patients and health care professionals consider important? | Karen Gordon, School of Pharmacy, University of London |
| 6. The use of permitted and banned medicines in rugby union by men – a questionnaire study | Dai John, Welsh School of Pharmacy, Cardiff University |
| 7. Ask about medicines: an online quiz for adolescents | Nicola Gray, School of Pharmacy, University of Nottingham |
| 8. Using email and the internet as a data collection tool in pharmacy practice research | Liza Nichols, School of Pharmacy, University of Manchester |
| 9. Movement of GB trained pharmacists overseas | Liza Nichols, School of Pharmacy, University of Manchester |
| 10. What is the evidence for the use of multi-compartment compliance aids by older people living in the community? | Jacqueline Nunney, School of Healthcare Studies, University of Leeds |
| 11. Relationship between the rate of paracetamol overdose and deprivation | Denise Robinson, Causeway Hospital, Coleraine, Northern Ireland |
| 12. Do tomorrow’s doctors and pharmacists want shared learning? Analysis of a pilot interdisciplinary project | Lesley Diack, School of Pharmacy, Robert Gordon University, Aberdeen |

MONDAY EVENING

5.45	Meet for trip to London Eye	Ground floor reception area
7.30	Drinks reception	First floor café area
8.00	Conference Dinner	First floor café area

TUESDAY 30TH MARCH 2004

9.15 THIRD PARALLEL SESSION (C)

Session C1 – Patients’ perspectives

Room 1.10

Chair: Claire Anderson

- | | |
|---|--|
| 1. Differing definitions of appropriateness | Charles Moorcroft, School of Pharmacy,
University of Manchester |
| 2. Self-management, well-being and learning | Jonathan Silcock, School of Healthcare
Studies, University of Leeds |
| 3. The medicines information needs of older
people with sight loss: preliminary findings | Mark Gibson, School of Healthcare
Studies, University of Leeds |

Session C2 – Research methods and capacity

Room 1.11

Chair: Sue Ambler

- | | |
|---|--|
| 1. Creating research capacity in community
pharmacy; dilemmas in practice | Roger Kirkbride, The Boots Company,
Nottingham |
| 2. HOMALS method of guiding analysis of
patient choice in TB prevention | Timothy Rennie, School of Pharmacy,
University of London |
| 3. Research capacity building: views of
community pharmacists participating in a
community pharmacies network | Ellen Schafheutle, School of Pharmacy,
University of Manchester |

Session C3 – Education

Room 1.17

Chair: Sue Jones

- | | |
|--|---|
| 1. Patients’ experiences of educating pharmacy
undergraduates | Rita Shah, Academic Department of
Pharmacy, Barts and the London NHS
Trust |
| 2. How can community pharmacists assess
competence? | Elizabeth Mills, School of Pharmacy,
University of London |
| 3. Evaluation pharmaceutical consultations:
the development of a “medication-related
consultation framework” | Rauja Abdel Tawab, School of
Pharmacy & Biomolecular Sciences,
University of Brighton |

10.45 Tea/coffee

11.15 FOURTH PARALLEL SESSION (D)

Session D1 – Pharmacy in the future

Room 1.10

Chair: Felicity Smith

- | | |
|---|--|
| 1. Innovation in community pharmacy contracts: describing 1 st wave local pharmaceutical services (LPS) pilots | Juliette Kendall, School of Pharmacy, University of Manchester |
| 2. Remote supervision: the views of pharmacy customers | Paul Bissell & Claire Anderson, School of Pharmacy, University of Nottingham |
| 3. What is driving local development of community pharmacy? | Gianpiero Celino, Webstar Health, North Harrow, Middlesex |

Session D2 – Pharmacy in the future

Room 1.11

Chair: Imogen Savage

- | | |
|---|--|
| 1. Dosing errors in paediatric medications – a systematic review | Maisoon Ghaleb, School of Pharmacy, University of London |
| 2. Can human error theory predict non-compliance? A test of the model | Joanna Furlong, School of Psychology, University of Leeds |
| 3. Human error theory (HET): a novel approach to developing strategies to improve the evidence based (EB) supply of non-prescription medicines (NPMS) | Margaret Watson, Department of General Practice & Primary Care, University of Aberdeen |

Session D3 – Workforce

Room 1.17

Chair: Anne Lovejoy

- | | |
|--|--|
| 1. Skill mix in community pharmacy: a case study of approach to explore the activities of dispensary support staff | Rachael Mullen, School of Pharmacy, University of Manchester |
| 2. Lessons from abroad: the roles and responsibilities of pharmacy assistants | Tanya Samuels, School of Pharmacy, University of Manchester |
| 3. Flexibility and the locum pharmacist | Phillip Shann, School of Pharmacy, University of Manchester |

12.45 Lunch First floor café area

2.00 CLOSING SESSION

Chair: Ian Simpson Ground floor auditorium (B5)

Research paper: presentation and reactions

What do people think is the likelihood of harm and benefit from two common medicines?

Presenter: Peter Knapp,
School of Healthcare Studies, University of Leeds

Reactor 1: Jeremy Henley
Expert Patient, Somerset

Reactor 2: Bryony Dean Franklin,
Director, Academic Pharmacy Unit,
Hammersmith Hospitals NHS Trust

Final Plenary

Pharmacists on trial

Andrew Andrews
Lawyer, Director of Medico-Legal Group,
Bond Solon Legal Training Consultancy

4.00 Tea/coffee and close
